

Exhibit A

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF MASSACHUSETTS**

JAMES ROBINSON,
On behalf of himself and all others similarly situated,

Plaintiff,

v.

NATIONAL STUDENT CLEARINGHOUSE,

Defendant.

Civil Matter No. 1:19-cv-10749

CLASS ACTION COMPLAINT

AFFIDAVIT OF SETTLEMENT ADMINISTRATOR

I, Jason M. Stinehart, declare as follows:

I am a resident of the United States of America and am over the age of 18. I am a Program Manager for Rust Consulting, Inc. (“Rust”), the Court-appointed notice and claims administrator in this case. Unless otherwise stated, I am fully familiar with, and have personal knowledge of, the matters stated in this declaration and am competent to testify about them if called upon to do so.

EMAIL NOTICE

1. On January 9, 2020, Rust Consulting received 57,273 records. Of the 57,273, there were 20,030 deduped based on name, address, and unique emails. Of the 57,273 records, 37,243 notices were emailed on March 23, 2020. 2,478 of the email notices bounced back. On April 3, 2020, 2,443 of the 2,478 bounce back notices were sent via U.S. Mail. 35 of the bounce back notices were excluded from the April 3, 2020, mailing as a result of the United States Postal Service country restrictions due to COVID 19.

2. On or about March 25, 2020, it was discovered that there were duplicates in the 37,243 notices that were emailed on March 23, 2020. First it was discovered that 36 records needed to be removed because the emails were client related emails and were provided in the data in error. Because of this, it was determined that it would be necessary to run an additional de-duping process to remove any other duplicates.

3. The process administered to eliminate duplicates was performed in five steps: (1) the data file was filtered by name and address and then was concatenated by name and zip code which resulted in 757; (2) the data was filtered by name and email and then concatenated which resulted in 875; (3) the data was filtered by name and address and then concatenated which resulted in 857; (4) the data was filtered by address, city and zip code and then concatenated which resulted in 2,274; and (5) the data was filtered by address and email and then concatenated which resulted in 1,012. The de-duping process resulted in 1,368 records being removed.

4. Pursuant to instructions from class counsel, 1,404 class members were excluded because 36 emails were client related, and 1,368 were duplicative based on the numbers demonstrated in para 3 above.

5. The total number of class members that are eligible to receive from this settlement is 35,839.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on June 4, 2020 in Minneapolis, Minnesota.

A handwritten signature in black ink that reads "Jason M. Stinehart". The signature is written in a cursive, slightly slanted style. Below the signature is a solid horizontal line.
